

ENVIRONMENTAL AWARENESS WORKSHOP

11th November 2008 - Egham, Surrey

Our environment and how to look after it is a very important issue for everybody and becoming more and more so, in order that we can try to preserve and look after our planet.

This half-day course is aimed at raising awareness of environmental issues in the marine industry such as waste, energy and water, managing oil and fuel and pollution prevention. The course will highlight the business case for taking steps to reduce environmental stresses and suggest ways of getting started. It will be presented by our Environment expert, Brian Clark.

Here is an outline of the course:

1. Waste - how to dispose of specific types of waste
2. Energy and Water - Efficiency measures
3. Managing Oil and Fuel
4. Pollution Prevention
5. Where to go from here?

Fees:

BMF Members £25.00 + VAT

Non Members £99.00 + VAT
