

Teacher script for a session on jobs within the Marine Industry

The Marine Industry currently employs 31,600 people in 4,500 companies in Britain.

Our careers film aimed at 10 -> 15-year-olds, is a fun way to start introducing school children to the world of Marine and the type of jobs that are available.

Our presenter Nevaeh, had great fun in interviewing the professionals and discussing what they did in their specific occupations.

Let's have a look at some of the jobs that you could think about for your future career: show video

[10-15 yr old careers video](#)

You can now explore the wider variety of jobs available within the industry by using the Marine Job cards. [Marine Jobs Info - Cards - British Marine](#)

You may have these in hard copy.

There are further teaching resources available here: [britishmarine/Careers/Teachers-Educational-Resources](#)

Links to [FE Colleges & Training Providers](#) who to contact, in order to create more interest in Marine careers are also available.

Our Boat Shows in [London Boat Show](#) & [Southampton Boat Show](#) are further ways to stimulate interest and have a more practical approach to working within the Marine Industry.
